Bachelors in History  
Education: May, 2011

## ABOUT

As a *Web Developer* with a strong background in customer service, I possess a strong work ethic and a great team player attitude. I thrive on performance and a fast-paced atmosphere.

## PROJECTS

### Hapcast Project

- Hapcast is another free lance project that I'm currently working on. While not my idea, I have been brought on to design certain aspects. Here is an example of a "Sign UP" page I have created.

**Link to Project:** <https://goo.gl/jx1h2K>

### Free Lance Project

- **Finer Details Cleaning** project was my very first time working with a client. This website is built using Angular and styled with SASS. This was a great learning experience.

**Link to Project:** <https://goo.gl/FRwrsN>

### Scheduler App

- Scheduler app was built using Ruby on Rails. This project allows users to schedule events and meetings.

**Link to Project:** <https://goo.gl/ulv6ae>

### Travel App

- This is a full stack app, using angular for the front-end and Rails with the back-end. This app was made for tourists to find things to do while visiting cities across the United States.

**Link to Project:** <https://goo.gl/eZCdj>

**Front-End:** <https://goo.gl/Ih1GQ2>

**Back-end:** <https://goo.gl/2w6TeW>

## EXPERIENCE

### RV Trader Web-BUILDER *July 2017– Current*

- Received Photoshop mock-ups and was relied upon to build them with HTML, CSS and Javascript.
- Was also expected to use Photoshop to flatten images, replicate text, gradients and make sure exact specifications were met.
- Mock-ups were made only with 1366px dimensions, I was expected to make sure mock-ups were coded with RWD in mind to use via Ipad and mobile.

### Freelance/Coding Bootcamp *November 2016 - July 2017*

- Went to General Assembly and did Freelance development work until RV-Trader

### Ratner Companies, *Project Coordinator* *November 2015-October 2016*

- Coordinated with other property managers to fix any structural damage.
- Worked as a team to evaluate property damage and find best possible quotes.
- Met deadlines to ensure operations ran smoothly, and repairs were made.

### Arhaus Furniture, *General Manager* *June 2013- October 2015*

- Resolved complex customer service needs. Oversaw a multi-million dollar operation with a staff of about 20 employees.
- Worked in a fast-paced atmosphere, helping to "close" thousands of dollars worth of sales.
